Digital Table Ordering & Instant  Apple Pay for Modern Aussie Cafés

BOOST REVENUE & ELIMINATE MORNING QUEUES

Give your guests the freedom to scan, order their specialty coffee & brunch, and pay with Apple Pay in 10 seconds.

No app downloads, no register bottlenecks, no splitting bills at the till. Just seamless digital table orders delivered straight to your barista & kitchen printers.

THE 3 MAJOR BOTTLENECKS FACING AUSSIE CAFÉS TODAY:

Morning Counter Queues

Customers walk away during peak 8:00–10:30 AM rush because the register queue is 10 people deep.

Lost Second Coffee Orders

Seated customers want another Flat White or pastry, but don't want to get up and line up again.

Rising Weekend Wage Costs

High penalty rates on Saturdays, Sundays, and public holidays squeeze profit margins tight.

HOW THE CUSTOMER EXPERIENCE WORKS:

1

Scan Table QR

Guest sits at Table 4 and scans the QR code. The live visual menu opens instantly.

2

Customise & Order

Selects Oat Milk, extra shot, avocado smash + adds poached eggs with clear visual modifiers.

3

1-Touch Apple Pay

Pays with Face ID. The barista screen chimes and prints the docket for Table 4.

Why Australian Cafés Love This System

 **Projected +18% to +25% Revenue Increase**

+22% Higher Average Spend

High-res photos of food and automated prompts (e.g. *Add Hash Browns +\$4.50 or Upgrade to Large +\$1.00*) drive impulse additions counter staff often forget during rush hours.

Faster Table Turnover (12–15 Min Saved)

No more waiting 10 minutes for staff to bring the bill or the EFTPOS terminal. Customers pay and leave on their schedule, freeing tables for new patrons.

Lower Floor Staff Pressure

Your team focuses 100% on hospitality and speedy food delivery rather than standing at the till typing card amounts manually.

100% ATO & ACCC Compliant

All prices display 10% GST included by law. Itemised official Tax Invoices with your venue **ABN** are sent to customers, with built-in weekend & card surcharge options.
